

宁波，简称甬，常住人口 760 万，是中国首批沿海对外开放城市之一，享受省级经济管理权限的计划单列市，长江三角洲南翼经济中心和浙江省经济中心、中国大陆综合竞争力前 10 强城市，中国重要的国际港口城市，连续三次蝉联全国文明城市，“中国质量强市示范城市”创建城市，中国金融中心城市综合竞争力前十强城市。

2013 年，宁波人均 GDP 超过 1.5 万美元，外贸进出口突破千亿美元，截止 2013 年，宁波拥有对外承包工程资质的企业 57 家，累计完成对外承包劳务合作营业额突破一百亿美元，列浙江省第一、全国副省级城市前三，海外工程遍布世界 89 个国家和地区，主要涉及房建、交通、电力、石化、资源开发及大型成套设备项目等。

本企业手册着重介绍 51 家宁波市对外承包工程企业的主营业务和已开展的境外工程项目，希望能与各国各地区的工程承包商在基建、电力、太阳能、交通、石化、航道疏浚、围海、港口等项目及啤酒制造、电梯、汽车、防腐等成套机电设备上进行合作，共同发展。

Ningbo, shortly called Yong, has a permanent resident population of 7.6 million. It is one of the first batch coastal cities opening up to the outside world in China, an independently planning city under direct central authority enjoying the same rights as those of a provincial government in economic management, the economic center in south Yangze River Delta and Zhejiang Province respectively, one of the comprehensive competitiveness of China's Top 10 cities, an important international port city in China. The city was remained as national civilized city for the third consecutive year, and was disignated successively as Creating City of China Demonstration City in Top Quality, financial center and urban comprehensive competetiveness of top ten cities in China. In 2013, the city GDP per capita reached more than USD 15000, the total purchase volume of import and export commodities

exceeded USD 100 billion. By 2013 the city had 57 enterprises enjoying foreign contracted qualification, with a total turnover of foreign contracting and labor service cooperation of over USD 10 billion, ranking the first place in Zhejiang Province and the third place in 17 sub-provincial cities in China. The overseas projects are distributed in 89 countries and regions, mainly related to the projects of house construction, transportation construction, electric power construction, petrochemical, overseas resources development and large complete sets of equipment, etc.

The booklet focuses on 51 Ningbo foreign contracting engineering enterprises' main business and overseas engineering projects, which have been carried out. We hope that the foreign contractors from all over the world will cooperate with us in the fields of housing construction, electric power construction, solar energy station construction, transportation construction, petrochemical, channel dredging, reclaim construction, port construction, and as well as the complete sets of equipments, such as food machinery, elevator manufacturing, auto production line, and corrosion insulation engineering, etc.

Ningbo C.S.I. Power & Machinery Group Co., Ltd. was successively awarded as National High-tech Enterprise, Zhejiang Industry Backbone Enterprise and the chairman unit of Zhejiang Marine Power Industry Union. It is major in medium speed high power marine engine and stationary power plant equipment with capacity of 300,000 m² factory, more than 10 shareholding companies and total assets of 2 billion RMB. The enterprise's main products consists of ten series medium speed diesel engines with bore size of 160mm~340mm, output of 184kW~4500kW and annual production of 3000MW. There are hundreds of variant engines and generators, which can use

diesel oil, crude oil, heavy fuel oil, natural gas, biogas and associated gas. Most products were successively awarded prize by Ningbo city, Zhejiang province and Nation. Now Ningbo C.S.I. Power & Machinery Group Co., Ltd undertook the national project of Research and Industrialization on Key Technology of High power middle speed engine accessed to the State Science and Technology Advancement Award. The project of Key Technology Development and Production of middle speed marine engine was sorted in supporting project on the Nation 12th Five-Year Plan. And the project of industrialization on diesel engine EFI system was sorted in 2012 Major national science and technology transformation program.

The company has undertaken nearly 100 power plant projects in Nigeria since 2001.

Introduction of Ningbo Xinda

Founded in 1972, Ningbo Xinda is one of the earliest enterprises specializing in the production of elevator accessories. Now it has the largest production capacity, and the most advanced equipments and technology in China.

The company is dedicated to the research, development and manufacturing of independent innovative products. It was the first enterprise which had successfully developed permanent magnet synchronous gearless traction machines and have created six items, which are “Ranking First in China”. Nowadays, Ningbo Xinda is a national key high technology enterprise. Its projects of Xinda traction machine and gearless traction machine are certified as national key innovation products and

included into the 'National Torch Program of China'. Ningbo Xinda and its main products have been awarded the titles of "National Customers Satisfaction Products" and "National Customers Satisfaction Service Enterprise" successively eight times in succession during the past 20 years(1990-2010).

The trademark "xinda" is well-known trademark in china, and xinda brand elevator traction machine is famous-brand product in Zhejiang Province

Established in August, 1988, Soundking Group Co. Ltd. is a group enterprise specializing in R&D, manufacturing, sale and international trade service of loudspeaker systems and related performing equipment.

Soundking's products cover 8 prime categories of professional loudspeakers, cinema loudspeakers, digital musical instruments, stage lighting, public broadcasting, audio cable & plugs, music stands & TV mount etc. which come to over 4000 models of products,

Soundking also gained honors like “Zhejiang Famous Brand”, “Zhejiang Prestigious Products”, “Zhejiang Model Enterprise of Patents”, “R&D Center of Zhejiang Electronics & Electro-acoustic Engineering Technology”, “ISO14001 Environmental Management Systems Certification” etc.

Furthermore, good credit standing of the group is recognized as “AAA” accredited company and the platinum account by Bank of China and other financial institutions.

Soundking Group has joined cooperation projects of more than 30 venues in 2008 Beijing Olympic, the specified brand of audio equipment for the China Pavilion and the Theme Pavilion in Shanghai World EXPO.

In 2011, the group is the Global Partner of Speakers Systems of 2011 Xi'an International Horticultural EXPO.

The latest published US magazine *Music Trades* announces a name list of Top 225 Global Music Instruments & Loudspeakers Suppliers, Soundking Group Co.,Ltd is in its 38th place globally.

宁波三鼎钢管工程有限公司

三鼎钢管公司坐落在宁波经济技术开发区，是一家专业从事超长、超大口径焊接钢管的生产企业。拥有 5000 吨级龙门档式自备码头，临海优势得天独厚。

公司拥有先进且高规格的螺旋焊管机组，从钢卷制作成钢管，主要的工艺过程都在焊管机组上连续自动进行。已生产的螺旋缝钢管最大直径为 3620mm，最大壁厚为 25.4mm，直径厚度比为

914:25.4，均为国内螺旋钢管的生产极限。在技术自主创新上，预精焊接新工艺，变壁厚螺旋钢管制造新技术和套管技术等都将成为行业领先。2004年杭州湾跨海大桥口径1.6米，长达90米的钢管桩一次性卷制成功实现；2005年承揽大陆连岛舟山金塘大桥钢管桩工程，2006年进入澳洲市场，2009年承担象山港跨海大桥、南澳大桥、舟山大陆跨海引水等国家、省市重点项目工程。

Located in Ningbo Economic and Technological Development Zone, Sanding steel company is a professional enterprise engaging in the production of long, large-diameter welded steel pipe. The company is equipped with 5,000 tonnage gantry type self-provided wharf, which enjoys exceptional advantages of the coastal location.

The company has advanced and high-standard spiral welded pipe mill. The manufacturing process of rolling plates to pipes are continuously and automatically in welded pipe mill. The spiral welded pipe is a maximum diameter of 3620mm, a maximum thickness of 25.4mm and the diameter thickness ratio of 914:25.4, which are both the domestic spiral pipe production ceiling. On the technological innovation, pre-finishing new welding processes technique, new technique of variable thickness spiral steel pipe manufacturing and casing technology have become the industry leader.

The steel pipe piles with a caliber of 1.6m a length of 90m, which are for the project of Hangzhou Bay Bridge, has been

rolled successfully at one time in 2004. The company contracted the steel pipe piles engineering of Zhoushan Jintang Bridge in 2005 , entered into the Australian market in 2006, and undertook the national and provincial key projects in 2009, such as the projects of Xiangshan Port Bridge, South Macau Bridge, Zhoushan Mainland Conducting Water Over the Sea.

Sun Earth Solar Power Co., Ltd (formerly Ningbo Solar Electric Power Co., Ltd.) has a very long and professional history, one of the most experienced companies in the solar power industry. Sun Earth is one of the famous PV enterprises in the world, with head quarters in Hi-tech Zone, Ningbo, Zhejiang Province, China. The company covers an area of 646,000 square meters. It is engaged in the development of solar power systems for integration, production and sale. The company is vertically integrated including polycrystalline silicon materials, silicon wafers, solar cells, solar modules, solar

controllers and inverters.

For a long time, Sun Earth has been immersed in the PV industry development, paying great attention to the research investment in harnessing the human element. Depending on the modern management system and abundant technique strength, Sun Earth has already become a famous manufacturer in the international PV market. The worldwide advanced technology and the experienced technical expertise persistently provides the customers with reliable high quality solar products, technical support and after sales service. Sun Earth products are widely applied in different fields such as big on-grid ground solar plant, on-grid roof solar systems, home solar system in remote area, solar power system in communication, solar street lamps, and solar traffic signal lamp etc.

The company has already obtained many product quality authentications, such as IEC, CE, TUV, CUL, Golden Solar etc. which are issued by leading domestic or international testing authorities. Sun Earth products have been distributed to each province in China, and also sold far to America, Europe, Australia, Africa and Southeast Asia etc. The solar cells produced by Sun Earth were acknowledged by the National Science and Technology Ministry as the first batch of "National Independent Innovation Product". The company won the awards for "Excellent Enterprise in the Ten Anniversary of Technical Innovation Fund Implemented by the Big or Moderate Technical Enterprises" issued by the national Science and Technology Ministry,. It also won "Hi-tech Industrial Ten Year's Harvest", "Most Promising Enterprise in Ningbo since the Establishment of New China 60 Years ago", "Excellent Export Company in the Chinese Solar Cell Industry", "Excellent Technical Advancement in the Renewable Energy Chinese Project Organized by World Bank Global Fund" issued by the national Development and Innovation Committee.

So long as there will be the sun tomorrow, Sun Earth will never stop serving for you!
